Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM
THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

The indicated allowability of claims 3 and 16 is withdrawn in view of the newly discovered reference(s) to Cohen et al. (US 5955886). Rejections based on the newly cited reference(s) follow.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

1. Claims 3-5, 16 are rejected under 35 U.S.C. 102(e) as being anticipated by Cohen et al. (US 5955886)

Cohen et al. disclose an ion mobility sensor for simultaneously detecting both ion and molecules, including:

a hollow housing (FIG. 1, element 10),
a glow discharge ionizer mounted to one end of said hollow housing (FIG. 1, elements 14, 46, 22, 16), wherein said glow discharge ionizer includes a hollow tube and a pointed member coaxially mounted in said hollow tube (FIG. 1, elements 46, 22); and
a glow discharge detector mounted to an opposite end of said hollow housing (FIG. 1, elements 44, 46, 60), wherein said glow discharge detector includes a hollow tube and a pointed member coaxially mounted in said hollow tube (FIG. 1, elements 46, 18, 60).

Referring to claim 4: wherein said hollow tube of each of said glow discharge ionizer and said glow discharge detector is mounted in opposite ends of said hollow housing (FIG. 1).

Referring to claim 5: wherein said glow discharge ionizer and said glow discharge detector are coaxially mounted in said housing and are coaxially aligned one with another (FIG. 1).

Allowable Subject Matter

2. Claim 6-13 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Referring to claim 6: The most pertinent art fails to disclose additionally including a pair of conductive members mounted around said hollow tubes of said ionizer and said detector, in contact with opposite ends of said hollow housing, and operatively connected to a power supply. Therefore, the claimed invention is not disclosed by the cited prior art.

Claims 7-13 are allowable because they depend directly/indirectly on claim 6.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to LAM S NGUYEN whose telephone number is (571)272-2151. The examiner can normally be reached on 7:00AM - 3:30PM.
